

6"/12"/24" i.rod.4™ spec sheet 90CRI

LED
body illumination
flexible planar LED lighting sheet in 3000K, 3500K, or 4000K (90CRI), utilizing emitters rated at >77,000hrs L₇₀ per TM21-11 from LM80 data. silver braid power cord standard.

downlight (optional)
add ribbed extrusion downlight housing (available in 2 anodized finishes or matte white powder coat paint). COB in 3000K, 3500K, or 4000K (90 CRI) rated >36,000 hours L70 (6.8K) per LM-80 test data, 71,000 hours projected life per IEM TM-21. choose from four beam spreads.

downlight optics
LEDiL® Angelina 82mm dia 31mm high (RoHS compliant) available in 20° spot, 30° medium, 50° wide with specular anodized finish. 90° extra wide features matte white highly reflective finish. color mixing sublens standard. standard mounting clamp allows for easy replacement of reflector in field. the typical total beam angle is the full angle measured where the luminous intensity is half of the peak volume.

end caps
comprised of two graduated diameter .100" thick aluminum plates. designed to center the acrylic diffuser and block light leaks. powder coat painted matte white.

driver
programmable, class 2, class P universal input (120-277v), constant current, 0-10v dimming, 1% minimum dimming level, PF >.9, THD <20%, protections include open and short circuit, overload and over temperature. remote driver enclosure standard. consult factory for distances over 33 feet.

diffuser
4" dia. .118" Satinice white acrylic cylinder, featuring light diffusion beads evenly distributed throughout the material for optimum light diffusion.

mounting
5" matte white canopy. single stainless steel cable and field adjustable gripper that allows for exact AFF mounting heights. silver braid power cord standard.

CDVR (optional)
7"dia. spun .064" aluminum canopy in matte white for surface mounted driver.

emergency
recommend use of inverter (by other).
optional WREM: wired for remote EM battery (by other).

Calculation Table

The application of a Light Loss Factor is required to:

- match the lumen output for the power module specified
- incorporate the increased lumen output due to LED/Driver upgrades

Cat No		Delivered* Lumens	Watts 120V / 277V	IES File #	LLF to be applied
