

job name:   
 type:

**) (ula.linear™ spec sheet 90CRI**

**material**

**housing**

an hourglass curved profile with a soft bullnose bottom return. precision 6063 prime T5 aluminum extrusion. powder coated finish. standard finishes listed below.

**bottom diffuser**

.118" thick laser cut optimum light diffusion acrylic. 72% light transmission with matte surface providing light scattering glare reduction. Colorless diffusion significantly reducing color shift of the LED's.

**top diffuser**

patent-pending Brightwing™ diffuser provides a 94% efficient "batwing" distribution. fixture provides highly-uniform indirect illumination.

**LED**

LED board in 3000K, 3500K, or 4000K (90+ CRI) employing Cree JK2835 281B LEDs. consult factory for 2700K. LEDs are rated >50,000 hours L70 (10K) at 85°C per LM-80 test data, and 70,000 hours projected life per IES TM-21. slim 5C (3-18/2-22) white power cord is standard with other color options listed below.

**driver**

constant current, class P class 2 power unit, class A sound rating, universal input (120-277V) programmable driver, 1% minimum dimming level, PF >0.90. protections include short circuit, input/output isolation and surge protection (3KV). wired for 0-10v dimming from factory.

**mounting**

5"dia. spun steel power feed canopy in satin white. two point vertical suspension of stainless steel cables attaches with field adjustable grippers that allow for exact AFF mounting heights. non-powerfeed leg has 2" satin white canopy at top.

**finish**

standard powder coat paint finishes listed below.

**emergency**

when required, recommend use of inverter (by other). optional WREM: wired for remote EM battery, requires 2nd power cord.

\*delivered lumens based on 4000K, 90+ cri (3000K multiplier .95)

The application of a Light Loss Factor is required to:

- match the lumen output for the power module specified
- incorporate the increased lumen output due to LED/Driver upgrades

P7248-HX-HX

# Advanced Calculation Table

Tests are for each element separately and must be "stacked" to represent single fixture  
Consult factory for applications assistance
